

# SAURABH SINGH

Mau, U.P • +91-8572921257 • [saurabhsinghup123@gmail.com](mailto:saurabhsinghup123@gmail.com) • [LinkedIn](#) • [Portfolio](#) • [GitHub](#)

## EDUCATION

<b>I.K Gujral Punjab Technical University, Kapurthala</b> Bachelor of Technology, Computer Science & Engineering B.Tech CSE - CGPA – 8.0	2023
<b>Ryan International School</b> 12th - Percentage – 72.2%	2019

## WORK EXPERIENCE

### Intern at Solitaire infosys

Dates: 1 Feb, 2023 – Present

Throughout my internship, I have been involved in various projects, where I have contributed to the development process by collaborating with the team and actively participating in code reviews and debugging sessions.

## PROJECTS

### Ecommerce Sanity Full Stack App

[GitHub](#) / [Project Link](#)

- Fully responsive modern full-stack ecommerce application.
- Advanced features including modern design, animations, product page, cart functionality, and checkout page with Stripe payment integration.
- Ability to add and edit products on the go using the content management system Sanity.
- Utilizes advanced React hooks and props, file-based routing, and advanced state management with React context API for optimized performance and user experience
- **Technical Stack:** HTML, CSS, JavaScript, React Js, JSX, Sanity, Stripe Payment Gateway, Next.js

### Saurabh Ecommerce React App

[GitHub](#) / [Project Link](#)

- Login functionality using Firebase authentication.
- Utilizes Chakra UI and React JS for a modern and responsive user interface.
- There is separate sections for men's and women's clothing.
- Includes an "Add to Cart" functionality for easy shopping.
- **Technical Stack:** HTML, CSS, JavaScript, React Js, JSX, Chakra UI, Firebase

### Gallery React App

[GitHub](#) / [Project Link](#)

- Developed a responsive image gallery app using Tailwind CSS and React, integrating the Pixabay API for image search functionality.
- Implemented a user-friendly interface allowing users to search for images based on terms and view the results in a visually appealing gallery layout.
- Utilized Tailwind CSS to create a modern and responsive design, ensuring seamless user experience across different devices and screen sizes.
- **Technical Stack:** JSX, HTML, Tailwind CSS, JavaScript, React Js, Pixabay API

## SKILLS & OTHERS
